Figure Table

Category Name Data Mgmt Design

Actionee ECS

Sub Category

Subject Release A & V0 client access to directory info.

Description of Problem or Suggestion:

GCMD may not support current access protocol forever. This may be dropped in favor of http and/or WAIS.

Originator's Recommendation

Look into a V0-ECS study to interact with GCMD to either maintain current protocol, migrate to new protocols, or return DIF info directly from DAAC.

GSFC Response by:

GSFC Response Date

HAIS Response by: Jacob Eisenstein

HAIS Schedule 9/13/95

HAIS R. E. J. Farley

HAIS Response Date 9/29/95

GCMD has agreed to support the current access protocol through the Release A operational period. This commitment meets the needs of the ECS Release A Client.
